What our course has to offer:
✦ Online Access – Students can access the course wherever they have an internet connection
✦ Easy to Follow Course Format
✦ Course Navigation Video – Familiarizes students with course layout
✦ Detailed Course Requirements
✦ Practice Quiz – Prepares students for timed and graded quizzes
✦ Practice Math Problems
✦ Customizable – Formatted to your weekly requirements
✦ Weekly Student Progress Reports
✦ Unparalleled Instructor Support

Course Information:
✦ 12 Weeks of Course Material
✦ Each Week Contains:
  • Audio/Visual Lecture
  • Timed Quiz
✦ Week 13 Final Exam
✦ Recommended Reading List

Replace or supplement your current physics training with our online semester physics course. Meets ARRT Course Requirements!

Contact Information:
Website: MedicalPhysicsTraining.com
Phone: 810-623-9053
Email: support@medicalphysicstraining.com

With our experience and expertise we are an excellent choice to help your students master their physics training!
Radiologic Technologist Physics Course

Audio/Visual Presentations

We recognize that students have different learning styles. That’s why our lecture presentations consist of visual slides with audio commentary.

Written notes are provided for each slide in the presentations.

Each presentation is searchable allowing for targeted review.

Students control the viewing speed of the lecture presentations and can review the slides as needed to master the material.

Completed lectures remain available to students for continued study.

Timed Quizzes

Every topic includes a timed quiz to measure student learning.

Quiz scheduling is customizable for your program.

A practice quiz is provided to familiarize students with the quiz format and time limit.

Each quiz is pulled randomly from our extensive question bank so every student will have a unique quiz.

Upon completion of each quiz students can immediately review their results which contain the correct answer and detailed information about each question.

Laura Smith, MS, DABR

Laura Smith, our course creator, is a Board Certified Physicist with 20 years of experience training medical personnel.

Laura presents physics material to students in a way that is clear and understandable to them.

Our instructors are committed to ensuring your students have the support they need to be successful.
